

Acacia Health Center at Sagewood

The beautifully-designed Acacia Health Center offers a refreshing new approach to assisted living (10 apartments), skilled nursing care for 28 suites (24 private suites and 4 semi-private suites), memory care support (six suites) and rehabilitative services located at the Sagewood resort-style community.

Acacia Health Center is resident-centered, featuring a state-of-the-art design reflecting the lifestyle and preferences of residents and provides care around their personal goals and aspirations.

Acacia Health Center has been designed with private, residential-style living offering personalized services in a highly dignified setting.

Acacia Health Center offers a rehabilitative therapy center featuring the Biodex Balance System for rehabilitation and an assessment of future independent living capabilities.

Designed to meet the future needs for residents of Sagewood, the Acacia Health Center will also accept public direct admission for assisted living, skilled nursing or memory care.

Acacia Health Center is Medicare certified and works with residents to optimize their Medicare and long-term care insurance coverage. The range of services provided for short- and long-term rehabilitation and nursing care is one-of-a-kind for a senior living community.

Twenty-five year health care veteran, Patrick Kinney, oversees Acacia Health Center as *HealthyLife*[™] Services Administrator. Further information is available at SagewoodLCS.com or by calling 480-384-5600.
